October Newsletter

United Day Care Center is expanding! We will remain open during construction, but you may see workmen around the property. We will be adding on additional infant and toddler rooms to fit the growing need for quality early childhood education. If you have any questions during this time, please see the front office!

As Fall approaches, please take the time to update your child's extra clothing left at the Center. If you have shorts and t-shirts at the Center, please consider bringing pants and an extra jacket or sweatshirt. Licensing requires Centers to take the children outside if the windchill is above 26 degrees, this includes the infant room as well.

October is National Fire Safety Month. Oct. 7th–13th is National Fire Prevention Week and Oct. 13th is National Home Fire Drill Day. Establish a family emergency action plan, discuss escape routes with family members, and locate fire extinguishers in your home. Additionally, conduct a mock fire drill with your family members to ensure you and your loved ones know how to get out safely. During this drill, outline meeting places that are at a safe distance from the home. Designate a neighbor to contact for help in the event of an emergency. Simple exercises such as the aforementioned could mean the difference maker in your family making it out alive in the event of a fire in your home.
